Stephanie Knight
Michael J. Vigeant, CEO, GreatBlue Research

With well over two decades of experience in market research, President and Founder Michael J. Vigeant champions the collaborative, client-focused atmosphere of GreatBlue Research. He launched The Center for Research in 2009 after serving as the Executive Vice President of The Center for Research and Public Policy, rebranding in 2013 to GreatBlue Research. Vigeant is a specialist in the design and implementation of a wide variety of quantitative and qualitative research methodologies including telephone, digital, journey mapping, mail, focus groups, and in-depth professional interviews. Michael has personally conducted over 500 focus groups across a diverse mix of industries. Vigeant is considered, nationally, to be one of the leading authorities on Utility research.

Elizabeth Burroughs, Engagement Manager

Elizabeth graduated from Georgia State University in 2013 with a BBA in Marketing. Her professional background includes experience with strategic marketing campaigns. As Engagement Manager at Apogee Interactive, her role includes creating and executing outbound communication plans for Apogee’s Envoy customers. Elizabeth specializes in digital communications strategies for utilities and is currently working with more than 20 utilities nationwide. She continues to help energy professionals meet and exceed their customer engagement goals with relevant, personalized, and proactive messaging regarding topics such as rate transformation, high bills, or utility program initiatives. Her proven campaign tactics include sophisticated digital applications that incorporate the utility customer’s bill analysis with or without AMI data. Once the customer’s data is analyzed the information is then selectively distributed in the form of video, text, email, and where appropriate, utility social media.

Stephanie Knight, Key Account Manager

Stephanie serves utilities from the Midwest to the Pacific Coast. With a diverse set of skills in management, communication, and leadership, she is able to provide the highest level of customer service, while building lasting relationships with her clients. Stephanie has a passion for developing and deploying strategic plans for customers to better communicate their brand, achieve their customer satisfaction goals, and educate the impact of energy-efficient behaviors. Stephanie is a graduate of the University of North Georgia with a BBA in Business Management.
May 12, 2020 | How COVID-19 is Impacting Utilities

AGENDA

#1 High Level Overview of Apogee and GreatBlue

#2 Satisfaction with Utility Operations during COVID-19

#3 Financial Impacts

#4 Communication Efforts

#5 Energy Consumption Shifts

#6 Time-of-Use Rates

#7 Customer Loyalty
Software as a Service (SaaS) provider focused on three major utility initiatives:

- Best in class Data Analytics
- Providing Consistency, Building Customer Trust

Who We Are
Leading the market in customer engagement

In our 27th year
Serving
HUNDREDS of utilities, reaching MILLIONS of customers
Harnessing the Power of Data to Help Clients Achieve Organizational Goals

Data to support strategic decisions to improve on products and services. Since 1979, our experience with study and instrument design, data collection, analysis, and formal presentation assists our clients in identifying the “why” and “what’s next.”

Talent with a knowledge base in a wide range of industries and methodologies ensures a 360º view of the challenges faced and the expertise to address them.

Solutions that are customized to provide a personalized approach of understanding organizational, employee, and customer needs allowing for more informed decisions.
Areas for Investigation

• Overall satisfaction
• Financial impact
• Preferred communication methods & frequency
• Shifts in energy consumption & corresponding behaviors
• Time-of-use rates as a potential method of saving money
• Importance of customer satisfaction & first contact resolution
COVID-19 Research
Among Connecticut Residents

- More than two-thirds of respondents (69.2%) reported COVID-19 has impacted their daily life.
- One-out-of-six respondents (16.6%) indicated their most pressing need due to COVID-19 the state government may be able to help with is “money / financial assistance.”
- The strong majority of residents (91.8%) are concerned with the financial impact of COVID-19 on Connecticut’s economy.

On a scale of one (1) to five (5) where one (1) is lowest impact and five (5) is highest impact, please rate to what extent COVID-19 has impacted your daily life?

Sample size = 1,000
Satisfaction with Utility’s Response to COVID-19

Overall goals and topics to cover as related to COVID
Satisfaction with Utility’s Response to COVID-19

- More customers with household incomes of $50,000 or more (83.8%) reported they are satisfied with their utility’s response to the COVID-19 pandemic than those with household incomes less than $50,000 (77.3%).

- A greater percentage of male customers (81.4%) reported they are satisfied with their utility’s response to COVID-19 than female customers (78.0%).

- Fewer customers from the Northeast (75.0%) indicated satisfaction with their utility’s response to COVID-19 than customers from the South (79.2%), West (79.8%), or Midwest (82.8%).
Financial Impacts

Awareness of programs and services available

Financial assistance needed
Financial Impacts: Electric Bill Payment Troubles

- One-quarter of surveyed customers (26.0%) indicated they have had to make adjustments in their electric bill payment due to the financial impact COVID-19 has had on them personally.
  - More customers with household incomes lower than $50,000 (28.8%) have had to make adjustments to their electric bill payment during this time than customers with household incomes of $50,000 or more (23.6%).
  - Fewer customers who own their residence (20.7%) have had to make adjustments to their electric bill payment than those who rent their residence (33.0%).

What adjustments have you had to make in your electric bill payment?

- Paid electric / utility bills late: 56.2%
- Utilized a payment plan assistance program: 40.4%
- Contacted utility to reduce bill (i.e. remove optional programs or services for the foreseeable future to reduce monthly payment): 30.8%
- Don’t know / unsure: 2.7%
- Other (please specify): 2.3%

Sample size = 260
Preferred Communication During COVID-19

Desired topics of communication during this time and mediums to receive communication from the utility:
Preferred Communication During COVID-19

- One-third of customers (33.3%) prefer to receive communication from their utility regarding COVID-19 updates through “email.”

- Fewer customers 55 years of age and older (41.1%) seek information regarding “payment assistance programs” from their utility than customers 35 to 54 years of age (46.9%) or those under 35 years of age (48.5%).

- Fewer customers residing in the Northeast (55.2%) rated their utility’s communication during COVID-19 positively than those from the Midwest (63.9%), South (63.3%), or West (62.8%).

What COVID-19 related topics would you like to see more communication from your electric utility about?

- Payment assistance programs: 45.4%
- Ways the utility is supporting individuals and communities during COVID-19: 40.1%
- Available financial resources provided by the utility: 34.3%
- Ways to conserve energy during this time: 31.1%
- Recommended ways to contact the utility regarding questions for quicker response times: 22.4%
- Policies / procedures / business continuity plan utility has developed during COVID-19: 22.3%
- Types of rate structures available and the benefits / advantages of each: 20.0%
- N/A do not want to receive information from my utility regarding COVID-19: 10.1%
- Don’t know/unsure: 6.8%
- Other (please specify):

Sample size = 1,000
Preferred Communication During COVID-19

- Communicate with your members for the next 4 – 6 months
- Drive members to utility provided COVID-19 resources
- Communicate about payment options
- Low cost ways to save
Energy Consumption and Ways to Conserve

Increases/Decreases

Knowledge of ways to save
Energy Consumption and Ways to Conserve

- Almost one-half of surveyed customers (46.9%) have noticed a shift in their household’s energy consumption due to COVID-19
  - Of those respondents, 83.4% indicated this was an increase in energy consumption
- A greater percentage of male customers (84.4%) indicated they are knowledgeable of different ways to conserve energy in their home than female customers (79.4%).
- More customers who own their residence (85.3%) reported they are knowledgeable of different ways to conserve energy in their home than those who rent their residence (78.3%).

How would you rate your knowledge of different ways to conserve energy in your home?

- Very knowledgeable: 81.9%
- Somewhat knowledgeable: 61.6%
- Not very knowledgeable: 20.3%
- Not at all knowledgeable: 15.4%
- Don't know/unsure: 2.0%

Sample size = 1,000
Energy Consumption and Ways to Conserve

• Low-cost, no cost savings tips

• Low-income
Time-of-Use Rates

Awareness of and interest in time-of-use rates

Hi John Smith,
Thank you for taking the time to try out our Rate Comparison Calculator. We offer several rate solutions to help fit different customer needs, and we hope this tool helps you understand some of your options.
If you would like to see all rate plans available to you, visit our website at www.utilityname.com/rates. You can also use the calculator at any time.

Our mailing address is:
123 Main Street, Atlanta, Georgia

Want to change how you receive these emails? You can unsubscribe or contact us from this list.
Time-of-Use Rates

Less than one-half of customers (47.8%) are aware of time-of-use rate structures.

- More customers residing in the West (56.6%) expressed awareness of time-of-use rates than those residing in the South (46.6%), Midwest (42.1%), or Northeast (42.1%).
- Awareness of time-of-use rates was lower among customers 55 years of age and older (38.5%) than customers 35 to 54 years of age (50.3%), or those under 35 years of age (55.4%).

Over four-fifths of respondents (82.3%) are interested in their utility implementing time-of-use rate structures in the coming months.

- Fewer customers from the Northeast (76.3%) reported interest in their utility implementing time-of-use rates than those residing in the West (84.3%), Midwest (83.2%), or South (81.8%).

How aware are you of time-of-use rate structures, which allow you to pay a different rate for your electric usage should you use electricity during off-peak hours of the day?

- Very aware: 19.4%
- Somewhat aware: 29.6%
- Somewhat unaware: 31.7%
- Not at all aware: 16.1%
- Don’t know / unsure: 3.2%

Customer Loyalty and First Contact Resolution

Maintaining customer satisfaction during COVID-19
Customer Satisfaction and First Contact Resolution During COVID-19

- Among customers who report their customer service issues are resolved upon the first point of contact, the average positive rating for overall satisfaction with their local electric utility is 82.2%.
  - Among customers who must have repeated contact with customer service to resolve their issue, the average positive overall satisfaction rating drops to 46.7%.
- It’s important to focus efforts during the COVID-19 pandemic towards resolving customer service issues and inquiries on the first point of contact to continue to maintain strong customer satisfaction ratings.

---

![Overall satisfaction with your local electric utility chart]

- Positive Rating (1-4): 82.2%
- Neutral Rating (5-6): 21.9%
- Negative Rating (7-10): 8.3%
- Don't know / unsure: 0.1%

Sample size = 1,163
Customer Satisfaction and First Contact Resolution During COVID-19

- Self-service
- Call prevention
- More informed customers
